

Home Leone is a unique, holistic, sustainable solution to Freetown's informal slums.

This landmark, social entrepreneurial initiative, enables opportunities for many to relocate to new communities.

We aim to relocate hundreds of thousands of people, if not millions, by leading through the example of pragmatically delivering impact and outcomes.

To present to the world a working model, by releasing the people's potential, using insights, experience and Gods love.

Home Leone
Building Communities of Hope with the Poor

**REALLY
USEFUL
THINGS YOU
CAN GIFT**

We are a charity that is literally transforming lives through building a village in Sierra Leone to help move the world's poorest people out from the slums
and you can help!!!!
